CHARTERED ACCOUNTANTS

Independent Auditors' Report to the Members of Stocxinvest Securities (Private) Limited
Report on the Audit of the Financial Statements

Opinion

We have audited the annexed financial statements of **Stocxinvest Securities (Private) Limited** (the Company), which comprise the statement of financial position as at June 30, 2025, and the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, statement of profit or loss, statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2025 and of the profit and other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

The management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investment made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business;
- d) the Company was in compliance with the requirements of section 78 of the Securities Act, 2015 and section 62 of the Future Market Act, 2016 and the relevant requirements of Securities Brokers (Licensing and Operations) Regulations, 2016 as at the date on which the statement of financial position was prepared; and
- e) no zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in independent auditor's report is Muhammad Shabbir Kasbati.

Chief Executive Officer

Director

1 THE COMPANY AND ITS OPERATIONS

Stocxinvest Securities (Private) Limited ("the Company") was incorporated in Pakistan on December 16, 2023 as a private limited company under the Companies Act, 2017.

The Company is holder of trading right entitlement certificate (TREC) of Pakistan Stock Exchange Limited (PSX). The principal activity of the Company is to carry on the business of brokerage, underwriting, consultancy and investments.

The registered office of the Company is situated at office No. 111, Sumya Business Avenue, Muhammad Ali Housing Society, Karachi.

2 BASIS OF PREPARATION

2.1 STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of International Financial Reporting Standard for Small and Medium Sized Entities (IFRS for SMEs) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS for SMEs, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention, except for short-term investments which are carried at fair value through profit or loss. These financial statements are prepared following accrual basis of accounting except for cash flow information.

2.3 Functional and presentation currency

Items included in in these financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the functional currency). These financial statements are presented in Pakistani Rupee, which is the Company's functional and presentation currency.

2.4 Significant accounting estimates and judgments

The preparation of these financial statements in conformity with the applicable accounting and reporting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historic experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revision to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In the process of applying the Company's accounting policies, management has made the following estimates and judgments which are significant to these financial statements:

	Note
Determining the residual values and useful life of fixed assets & intangible assets	4.1 & 4.2
Provision for doubtful debts and other receivables	4.3, 4.12 & 4.14
Recognition of tax and deferred tax	4.4
Provisions and contingent liabilities	4.7 & 4.8

3 CHANGE IN ACCOUNTING STANDARDS, INTERPRETATIONS AND AMENDMENTS TO PUBLISHED ACCOUNTING AND REPORTING STANDARDS

a) Amendments to published accounting and reporting standards which became effective during

The following amendments to International Financial Reporting Standards (IFRS) became effective for annual reporting periods beginning on or after January 01, 2024, and therefore were applicable to the Company's financial statements for the year ended June 30, 2025:

(i) IAS 1 – Presentation of Financial Statements (Amendments: Disclosure of Accounting Policies & Classification of Liabilities as Current or Non-current, with Non-current Liabilities with Covenants)

- The Company has accounted for the effects of these changes in accounting policy retrospectively under IAS 8 (Accounting Policies, Changes in Accounting Estimates and Errors) and the corresponding figures have been restated in these financial statements. The effects of restatements are as follows:
- They also clarify the classification of liabilities as current or non-current based on rights existing at the reporting date and require specific disclosures for covenants related to non-current liabilities.
- The amendments did not result in any material change to the Company's financial position or performance, except for enhanced disclosure of accounting policies.

(ii) IAS 7 – Statement of Cash Flows and IFRS 7 – Financial Instruments: Disclosures (Amendments: Supplier Finance Arrangements)

- Introduces specific disclosure requirements regarding supplier finance (reverse factoring) arrangements to enable users of financial statements to understand the effects on liabilities, and cash flows.
- The Company does not have supplier finance arrangements; therefore, the amendments did not impact these financial statements.

b) New standards and amendments to published accounting and reporting standards that are not yet effective and not early adopted by the Company

The following new standards and amendments to existing standards have been published and are mandatory for accounting periods beginning on or after the dates mentioned below. These have not been early adopted by the Company:

(i) **IFRS 18 Presentation and Disclosure in Financial Statements**

Effective date:
January 1, 2027

IFRS 18 replaces IAS 1 Presentation of Financial Statements and introduces significant changes to the structure and disclosure requirements of financial statements. The key objective is to improve comparability and clarity of performance reporting across entities. The standard introduces three defined categories in the statement of profit or loss: operating, investing, and financing. It also introduces requirements for companies to disclose management-defined performance measures (MPMs) used in public communications, along with reconciliations to IFRS-defined subtotals. In addition, IFRS 18 provides enhanced guidance on disaggregation and promotes a more objectives-based disclosure approach. The Company is assessing the potential impact of this standard on the classification, presentation, and disclosures in its financial statements.

(ii) **IFRS 19 Subsidiaries without Public Accountability: Disclosures**

Effective date:
January 1, 2027

IFRS 19 permits eligible subsidiaries—those without public accountability and whose parent prepares financial statements in accordance with IFRS—to apply all recognition, measurement, and presentation requirements of IFRS while providing reduced disclosures. The objective is to reduce the cost of compliance for such subsidiaries while maintaining transparency for users of financial statements. The Company is currently evaluating whether any of its subsidiaries qualify for the application of IFRS 19 and the potential impact on future disclosure requirements.

(iii) **IFRS 7 Financial Instruments: Disclosures (Amendments)**

Effective date:
January 1, 2027

The amendments require entities to disclose additional information about supplier finance arrangements, including the terms and conditions, the carrying amounts of financial liabilities subject to such arrangements, and the line items in which they are presented. The objective is to improve transparency and help users assess the effects of these arrangements on an entity's liabilities, liquidity, and cash flows. The amendments apply when an entity enters into arrangements where a finance provider pays amounts the entity owes to its suppliers. The Company is evaluating the impact of these disclosure requirements and will implement the changes in accordance with the effective date.

(iv) **IFRS 9 Financial Instruments (Supplier Finance Arrangements)**

Effective date:
January 1, 2027

These amendments clarify the classification and presentation of liabilities that arise from supplier finance arrangements. They aim to ensure consistent application of derecognition, modification, and classification principles under IFRS 9. In particular, the amendments provide guidance on how an entity should assess whether a liability should be classified as a financial liability or trade payable, based on its substance rather than legal form. The amendments work alongside related changes to IFRS 7 and IAS 7 to improve transparency around the use of such arrangements. The Company is currently assessing the impact of these amendments on its accounting treatment and financial statement presentation.

(v) **IFRS S1 General Requirements for Disclosure of Sustainability-**

Effective date:
January 1, 2027

IFRS S2 Climate-Related Disclosures

These standards include the core framework for the disclosure of material information about sustainability-related risks, opportunities across an entity's value chain and set out the requirements for entities to disclose information about climate-related risks and opportunities.

IFRS S1 requires entities to disclose information about its sustainability-related risks and opportunities that is useful to primary users of general purpose financial reporting in making decisions relating to providing resources to the entity. The standards provide guidance on identifying sustainability-related risks and opportunities, and the relevant disclosures to be made in respect of those sustainability-related risks and opportunities.

IFRS S2 is a thematic standard that builds on the requirements of IFRS S1 and is focused on climate-related disclosures. IFRS S2 requires an entity to identify and disclose climate-related risks and opportunities that could affect the entity's prospects over the short, medium and long term. In addition, IFRS S2 requires entities to consider other industry-based metrics and seven cross-industry metrics when disclosing qualitative and quantitative components on how the entity uses metrics and targets to measure, monitor and manage the identified material climate-related risks and opportunities. The cross-industry metrics include disclosures on greenhouse gas ('GHG') emissions, transition risks, physical risks, climate-related opportunities, capital deployment, internal carbon prices and remuneration.

The management anticipates that the adoption of the above standards, amendments and interpretations in future periods, will have no material impact on the financial statements other than in presentation / disclosures. There are a number of other standards, amendments and interpretations to the published standards that are not yet effective and are also not relevant to the Company and, therefore, have not been present here.

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

4 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies are consistently applied in the preparation of these financial statements are the same as those applied in the earlier periods presented in these financial statements.

4.1 Property and equipment

All items of fixed assets are measured at revalued amounts, which is the fair value at the date of revaluation less accumulated depreciation and accumulated impairment losses, if any.

Maintenance and normal repairs are charged to profit or loss account as and when incurred. Major renewals and improvements are capitalized.

Assets useful lives and residual values that are significant in relation to the total cost of the assets are reviewed, and adjusted if appropriate on a prospective basis, at each balance sheet date.

Depreciation is charged by applying the straight line method after taking into account residual value, if any, whereby the depreciable amount of the assets is written off over its estimated useful life at the rates mentioned in the note 5 to these financial statements. Depreciation is charged from the month the asset is available for use and up to the month, preceding the disposal.

The gain or loss arising on disposal or retirement of an item of property and equipment is determined as the difference between the sales proceeds and the carrying amounts of the asset and the relevant remaining revaluation surplus is reclassified directly to unappropriated profit.

4.2 Intangible asset – Trading rights entitlement certificates (TREC)

TREC is stated at an allocated carrying value out of previously recognized intangible asset (Membership Card) that was presented under revaluation model. Allocation of carrying value has been made as the residual balance of previously recognized intangible asset after deducting the ordinary share of LSE Financial Services Limited (Formerly Lahore Stock Exchange Limited) at their face value.

4.3 Trade debts

These are recognised and carried at original invoice amount and subsequently measured at amortised cost using EIR methodology. Loss allowance is made on the basis of lifetime ECLs that result from all possible default events over the expected life of the trade debts and other receivables. Bad debts are written-off when identified.

4.4 Taxation, final and minimum tax

Final and minimum tax

Computation of minimum tax chargeable under various sections of ITO 2001, provisions of such sections require its comparison with amount of tax attributable to income streams taxable at general rate of taxation, such minimum taxes are not fully outside the scope of IAS-12 and a certain portion of them falls in scope of IAS - 12. Based on this, the minimum taxes under ITO 2001 are hybrid taxes which comprise of a component within the scope of IAS - 12 and a component within the scope of IFRIC - 21 / IAS - 37.

As regards final taxes, its computation is based on revenue or other bases other than taxable income, therefore, final taxes fall under levy within the scope of IFRIC – 21 / IAS – 37, hence treated and classified accordingly, as per the requirements of / and guidelines issued by ICAP.

In identifying and classifying each component of minimum tax being hybrid in nature, company designate the amount calculated on taxable income using the notified tax rate as an income tax within the scope of IAS – 12 “Income taxes” and recognize it as current income tax expense. Any excess over the amount designed as income tax, is recognized as a levy falling under the scope of IFRIC – 21 / IAS – 37.

Taxation

Income tax expense is recognized in the statement of profit or loss except to the extent that it relates to items recognized in other comprehensive income or directly in equity (if any), in which case the tax amounts are recognized directly in other comprehensive income or equity.

Current

Provision for current taxation is based on taxable income at the current rates of taxation after taking into account available tax credits and rebates, if any, and any under / over provisions in respect of prior years.

It is also based on the application of provisions of law that may be imposed and changed from time to time.

Deferred

Deferred tax is calculated using the liability method on all temporary differences at the balance sheet date, between the tax base of the assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences, un-absorbed tax losses to the extent that it is probable that the deductible temporary differences will reverse in the foreseeable future and significant taxable income will be available against which the deductible temporary differences or un-absorbed tax losses can be utilized. The carrying amount of all deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax is charged or credited in the profit and loss account, except where deferred tax arises on the items credited or charged directly to the equity, in which case it is included in equity.

4.5 Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purposes of the cash flow statement, cash equivalents comprise cash in hand, cash at banks and other short term highly liquid instruments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in values.

4.6 Trade and other payables

Trade payables are obligations under normal short-term credit terms. Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in future for goods and services received, whether or not billed to the Company. These are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities.

4.7 Provisions

Provisions are recognized when the Company has a legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations and a reliable estimate of the amount can be made. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

4.8 Contingent liabilities

A contingent liability is disclosed when the Company has a possible obligation as a result of past events, the existence of which will be confirmed only by the occurrence or non-occurrence, of one or more uncertain future events, not wholly within the control of the Company; or when the Company has a present legal or constructive obligation, that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

4.9 Revenue recognition

The Company recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Company's accounting policies with respect to its revenue recognition are as follows:

- a) Brokerage commission is recognised on trade date.
- b) Dividend income is recorded when the right to receive the dividend is established.
- c) Gain / (loss) arising on sale of investments are included in the statement of profit or loss in the period in which they arise.
- d) Unrealised capital gain / (loss) arising from remeasurement of investments classified as FVTPL are included in the statement of profit or loss for the period in which they arise.

4.10 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

4.10.1 Initial measurement of financial assets

The Company classifies its financial assets into following three categories:

- a) Fair value through other comprehensive income (FVTOCI);
- b) Fair value through profit or loss (FVTPL); or
- c) At amortised cost.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. The Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Except for trade receivables which are measured at the transaction price determined under IFRS 15.

Financial assets are classified and measured at fair value through other comprehensive income (FVTOCI) or amortised cost, if both of the following conditions are met:

- a) The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial asset and; (Business Model test).
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are Solely Payments of Principle and Interest thereon. (SPPI test).

All purchase and sales of financial assets are recognised on settlement date.

4.10.2 Subsequent measurement

a) Financial assets at amortised cost

The Company measures its financial assets at amortised cost if business model test & SPPI test is passed. These assets are subsequently measured at amortised cost using effective interest rate (EIR) method and are subject to impairment as at each reporting date. Gains / losses are recognised in the statement of profit or loss when the asset is derecognised / retired / modified.

b) Financial assets at fair value through other comprehensive income (FVTOCI) (Equity instruments).

Upon initial recognition, an entity may make an irrevocable election to classify its equity investments at FVTOCI that are not held for trading purpose. Subsequent changes in the fair value of an equity investment are presented in other comprehensive income which are never reclassified to the statement of profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI.

Equity instruments designated at fair value through OCI are not subject to impairment assessment.

c) Financial asset at fair value through profit or loss (FVTPL)

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as FVTPL if they are acquired for the purpose of selling or repurchasing in the near term. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch. Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

4.10.3 Derecognition of financial assets

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

4.10.4 Financial liabilities

Financial liabilities are initially recognised as financial liability at fair value through profit or loss or at amortised cost using Effective Interest Rate (EIR) method as appropriate. Financial liabilities are initially recognised at fair value net of directly attributable transaction cost in case of loans, borrowings and payables. Financial liabilities at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in the statement of profit or loss. Financial liabilities, other than those carried at fair value through profit or loss (FVTPL), are subsequently measured at amortised cost using the EIR method.

4.10.5 Derecognition of financial liabilities

Derecognition of financial liabilities occurs from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in statement of profit or loss as other income or finance costs.

4.11 Off-setting of financial assets and liabilities

Financial asset and financial liability are offset and the net amount is reported in the balance sheet, if the Company has a legally enforceable right to set-off the recognised amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

4.12 Loss allowance for ECL / Impairment

Financial assets

The Company assesses on a forward-looking basis the Expected Credit Loss (ECL) associated with its financial assets carried at amortised cost and FVTOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk from the date of initial recognition of a financial asset.

Boon

For trade receivables, the Company applies 'simplified approach' as permitted by IFRS 9, which requires expected lifetime credit losses to be recognised at initial recognition and throughout the life of the receivables at an amount equal to lifetime ECLs. Loss allowances are recognised in the statement of profit or loss as at reporting date.

Non-financial assets

The carrying amounts of non-financial assets are assessed at each reporting date or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If such indication exists, and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount. An asset's recoverable amount is the higher of its fair value less cost to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows. Non-financial assets that suffered an impairment, are reviewed for possible reversal of the impairment as at each reporting date. Reversal of impairment loss are restricted to the extent that asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised. An impairment loss, or the reversal of an impairment loss, are both recognised in the statement of profit or loss.

4.13 Foreign currencies

These financial statements are presented in Pak Rupees, which is the Company's functional currency. All monetary assets and liabilities denominated in foreign currencies are translated into Pak Rupees at the rates of exchange prevailing at the balance sheet date, while the transactions in foreign currency during the year are initially recorded in functional currency at the rates of exchange prevailing at the transaction date. The Company charges all the exchange differences to profit and loss account.

4.14 Provision for doubtful debts

The Company reviews its receivables against any provision required for doubtful balances on an ongoing basis. The provision is made while taking into consideration expected recoveries, if any.

4.15 Borrowings

Borrowings (except for as disclosed in Note 9) are recognized initially at fair value and are subsequently stated at amortized cost. Any difference between the proceeds and the redemption value is recognized in the profit and loss account over the period of the borrowings using the effective interest method.

4.16 Dividend and transfer of reserve

Dividend and transfers among reserves declared after the balance sheet date are treated as post balance sheet non-adjusting events hence do not qualify for provision in the financial statements as per the requirements of 'Accounting and Financial Reporting Standard for Medium Sized Entities'. These transfers are, therefore, recorded in the next year's financial statements in which these are declared.

4.17 Earnings / (loss) per share

Earnings per share are determined according to IAS-33 (Earnings per share) by dividing net income / loss by the weighted average number of shares. Currently, there is no dilutive impact on the Company's earnings per share.

21.3 Financial risk management

The Company primarily invests in marketable securities and are subject to varying degrees of risk.

The Board of Directors of the Company has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk
- Operational risk

21.3.1 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss, without taking in to account the fair value of any collateral. Credit risk arises from the inability of the issuers of the instruments, the relevant financial institutions or counter parties in case of placements or other arrangements to fulfil their obligations.

21.3.2 Exposure to credit risk

Credit risk of the Company arises principally from the trade debts, short term investments, loans and advances, deposits and other receivables. The carrying amount of financial assets represents the maximum credit exposure. The Company allow to trade in future contracts after taking 100% margins.

Credit risk is minimised due to the fact that the Company invest only in high quality financial assets, all transactions are settled / paid for upon delivery. The Company does not expect to incur material credit losses on its financial assets. The maximum exposure to credit risk at the reporting date is as follows:

	Note	June 30, 2025	June 30, 2024
		-----Rupees-----	
Short term investment	9	37,981,500	19,194,010

Bank balances	10	5,601,116	734,555

21.3.3 Bank balances

The analysis below summarizes the credit quality of the Company's bank balance:

			June 30, 2025	
Name of banks	Rating agency	Rating - long term	Rupees	%
Meezan Bank Limited	PACRA	AAA	<u>5,601,116</u>	<u>100.00%</u>
			June 30, 2024	
Name of banks	Rating agency	Rating - long term	Rupees	%
Meezan Bank Limited	PACRA	AAA	<u>734,555</u>	<u>100.00%</u>

21.3.4 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company could be required to pay its liabilities earlier than expected or difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding to an adequate amount of committed credit facilities and the ability to close out market positions due to dynamic nature of business.

June 30, 2025

	668,216	-	-	-

On the balance sheet date, the Company has cash and bank balances of Rs. 0.73 million (2024: 0.18 million) and short term investments of Rs: 19.19 million (2024: Rs. 7.40 million) for repayment of liabilities.

21.3.5 Market risk

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market interest rates or the market price due to change in credit rating of the issuer or the instrument, management manages market risk by monitoring exposure on marketable securities by following the internal risk management and investment policies and guidelines.

Market risk comprises of three types of risk: currency risk, interest rate risk and other price risk.

21.3.5.1 Currency risk

Foreign currency risk arises mainly where receivables and payables exist due to transactions in foreign currencies. Currently there is no currency risk as all financial assets and liabilities are in PKR.

21.3.5.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market risk. At the reporting date the interest rate profile of the Company's interest bearing financial instruments is as follows:

21.3.5.3 Other price risk

Other price risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices(other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factor affecting all or similar financial instrument traded in the market.

The Company's listed securities are susceptible to market price risk arising from uncertainties about the future value of investment securities. The Company manages the equity price through diversification and all instruments are made through surplus funds.

The Company is exposed to other price risk on investment in listed shares. The Company manages the risk through portfolio diversification.

The 10% increase / (decrease) in market value of these instruments with all other variables held constant impact on profit and loss account of the Company is as follows:

	Before tax	
	10% increase	10% decrease
As at June 30 2025	3,798,150	(3,798,150)
As at June 30 2024	1,919,401	(1,919,401)

The selected hypothetical change does not reflect what could be considered to be the best or worst case scenarios.

21.3.6 Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the processes, technology and infrastructure supporting the Company's operations either internally within the Company or externally at the Company's service providers, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of investment management behavior. Operational risks arise from all of the Company's activities.

The Company's objective is to manage operational risk so as to balance limiting of financial losses and damage to its reputation with achieving its objective of generating returns for stakeholders.

Senior management ensures that the Company's staff have adequate training and experience and fosters effective communication related to operational risk management.

21.4 Fair value of financial instruments

The carrying values of all financial assets and liabilities reflected in these financial statements approximate to their fair value.

The Company at year end hold listed assets amounting to Rs 37.97 million (2024: 19.19 million) that are recorded at quoted price.

21.5 Capital risk management

The primary objective of the Company's capital management is to maintain healthy capital ratios and optimal capital structure in order to ensure ample availability of finance for its existing operations, for maximizing shareholder's value, for tapping potential investment opportunities and to reduce cost of capital.

The Company manages its capital structure and makes adjustment to it, in light of changes in economic conditions. Furthermore, the Company finances its operations through equity, borrowing and management of its working capital with a view to maintain an appropriate mix between various sources of finance to minimise risk.

Net capital requirements of the Company are set and regulated by Pakistan Stock Exchange. These requirements are put in place to ensure sufficient solvency margins and are based on excess of current assets over current liabilities. The Company manages its net capital requirements by assessing its capital structure against required capital level on a regular basis.

22. BASE MINIMUM CAPITAL

In compliance with the Regulation 19.2 of the Rule Book of Pakistan Stock Exchange Limited, every Trading Right Entitlement Certificate (TREC) holder registered as a broker under Brokers and Agents Registration Rules, 2001, is required to maintain a Base Minimum Capital (BMC) in the amount and form as prescribed in the Rule on the basis of Assets Under Custody (AUC). As per the said regulation, as at June 30, 2025, the Company is required to maintain BMC of Rs. 15 million.

The Company has pledged shares of Pakistan Stock Exchange for taking exposures in regular and future market against Base Minimum Capital (BMC) requirement.

While determining the value of total assets of TREC holder, the Notional value of the TREC held by Stocxinvest Securities (Private) Limited as at year ended June 30, 2025 determined by Pakistan Stock Exchange has been considered.
